---

Cura scaffolding are premier scaffolding contractors. Our commitment to safety, customer satisfaction, affordability and expert knowledge is unrivalled. With highly trained staff and varied services across a number of industries, we can tackle any sized venture.

Exceeding expectations is our goal...

## Who are we?

---

CURA Scaffolding are premier scaffolding contractors.

Our commitment to safety, customer satisfaction, affordability and expert knowledge is unrivalled. With highly trained staff and varied services across a number of industries we can tackle any sized venture.

Our highly trained team excel in commercial and residential scaffolding. With our focus on Customer Care, Quality and Safety we excel in 'sensitive' escalated complaint situations within the residential market and high profile commercial environments like docks, train stations and airports.

## Projects

---

# Our Services

## COMMERCIAL SCAFFOLDING

Ideally suited to commercial projects, we erect scaffolds for business premises such as shops, office blocks, flats, industrial units, and all areas with public access as well as specialising in Airport and Rail sectors. Safety is our key priority for all such sites.

## DOMESTIC SCAFFOLDING

Our residential scaffolding is suited for all tasks such as gutter work, windows, soffits, rendering work and all essential domestic repairs. We are experienced in Customer Care related issues within the House Building sector with vast experience in projects such as temporary roof coverings and access for fire safety inspections and remedials. We provide competitive rates for both trade and homeowners.

## NEW BUILD SCAFFOLDING

For all new builds, we offer a tailored service for the construction industry, small homebuilders, bricklayers and steel and concrete services. We always work to your timescales with erection and disassembly available at short notice.

## SCAFFOLDING TOWERS

If you have a difficult to reach part of a property such as dormer windows, flues or downpipes, our scaffolding towers can be with you next day with a flexible booking period and competitive rates.

## GANTRY SCAFFOLDS

Using our gantry scaffolding, we can bridge over any number of obstacles, including train tracks, roads, driveways and garages. Our gantry scaffolds use beams supported by towers on either side.

## BIRDCAGES

Our birdcage or crash deck scaffolding is ideal for reaching areas inside properties such as ceilings. Full boarding ensures a safe working area and maximum protection from falls and accidents.

## EXTENSIONS

We provide systems for access to 3 or 4 sides of any extension, single or 2 and 3 storey. During the extension process, we are available to change scaffold height and add further sections to accommodate work as it progresses.

## SHORING

We are experts at shoring and support structures. For any unsafe wall or required support during a building project, our team will build a framework of supports and bracing to prevent masonry failure.
